### *Welcome to Glen Cove*

It has been three years since the last Glen Cove production sale and we feel that much progress has been made in that time. Today, much of the cow herd is line-bred to the two famous stock bulls, Glen Cove Cairnbrogie and Louada Nugget. Herd numbers are at their peak so we can offer top daughters of both these bulls together with a number of their granddaughters.

Careful attention has been paid not only to individuality but also to pedigrees and we are all confident that you'll approve the rich heritage with each animal selling.

Please be with us on sale weekend. The farm should be at its most beautiful and you'll find the drive a scenic one. We look forward to greeting each of you personally and to showing you the entire operation. Plan definitely to be our guests at dinner at the home farm the night before the sale.

*Clarence and Lewis Worden*

# STANDARD GUARANTEE

## Endorsed by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

**Plenty of natural  
grass, abundant  
shade and water  
provide this beautiful  
setting for the  
Glen Cove cow herd.**

You'll be pleasantly surprised at the quality you find in the Glen Cove Production Sale. Not that good Shorthorns haven't been bred there for years, they have and there are great show and sale records to prove it. In the last several years, however, the breeding program has progressed rapidly and there is a rich depth of pedigree behind almost every animal in the herd.

The Glen Cove Shorthorns are managed practically. They are sound cattle with the stamina and capacity to do well in any new environment.

Arrive early sale weekend. See the entire operation. Study particularly the mature brood cows selling. They represent most of the good families in the herd and include several daughters of Louada Nugget and Glen Cove Cairnbrogie themselves.

You can find that top stock bull or extra special female at Glen Cove on October 26. See you there!

**LOUADA NUGGET** — The \$36,000 (a record at the time) Louada Nugget is gone now, but his influence will be important throughout the Shorthorn and Polled Shorthorn industry for years to come. By Bapton Constructor, he best typifies the magnificent head, bone and character associated with that line of breeding. Nugget was out of Calrossie Iona Ramsden, one of those valued daughters of Calrossie Hyperbole. Calrossie Flossy Beau and Rothes Flower were two of the best producers of stock bulls the breed has ever known. After long and successful service at Glen Cove, interests were sold to KC Farms, Kansas City, Mo., and to W. L. Anderson, West Liberty, Iowa, where he did equally well. An interest later went to Arrowhead Farms, Batesville, Ind., where Nugget did much to improve the polled branch of the breed. It would be impossible to recount all the champions and top-sellers he sired, but a few are pictured on the adjoining page. This is perhaps the last chance to buy any direct daughters of Louada Nugget and the entire offering is rich in his blood.

**Arrowhead Nucleus x by Louada Nugget was grand champion of the 1968 Illinois State Fair for Sutherland Farms, Prospect, Ky., and Arrowhead Farms, Batesville, Ind. Sutherland had purchased two-thirds at the top of the 1967 Tennessee National sale.**

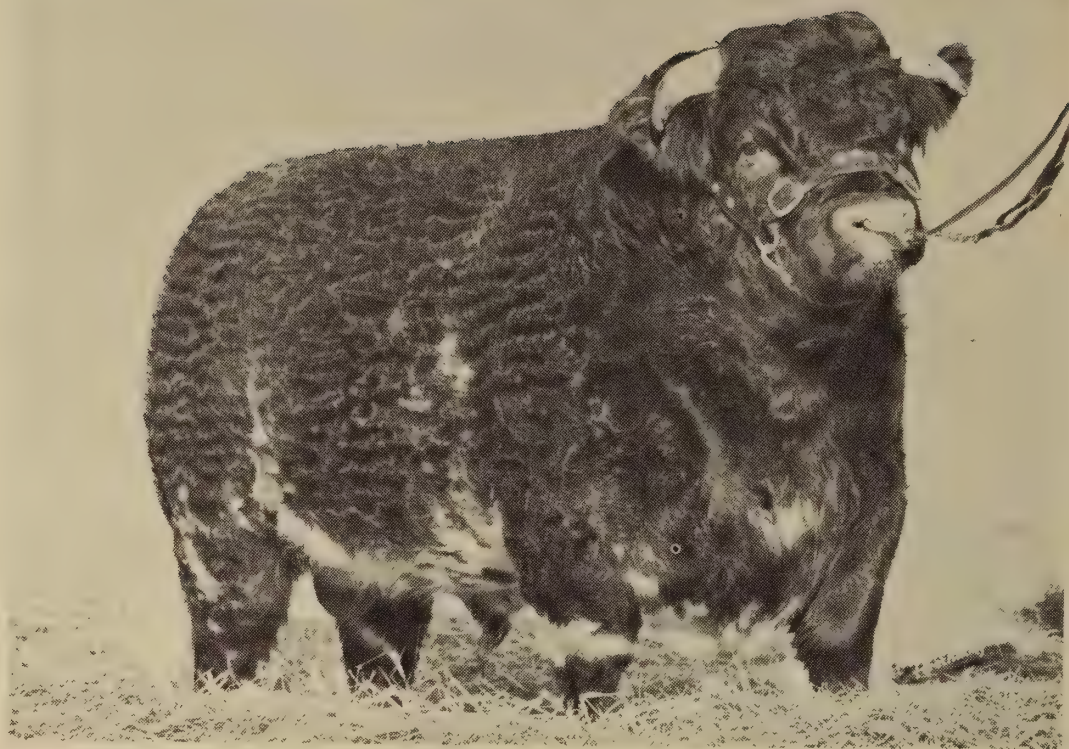

**Scottish Buttercup 3rd of KC by Louada Nugget was reserve grand champion female of the 1966 National Western Livestock Show for KC Farms, Kansas City, Mo.**

**From left are Glen Cove Crosuc Queen by Louada Nugget that topped the 1965 Glen Cove Sale to Arrowhead Farms, Batesville, Ind. The heifer at right is Glen Cove Princess Dale by Louada Nugget that sold to Redline Farms, Dumas, Ark.**

**GLEN COVE CAIRNBROGIE** — The 1961 International supreme champion bull and All-American two-year-old is gone now, but his influence is being perpetuated in the Glen Cove herd by his sons and daughters. He is one of the world's all-time great show bulls and was equally successful as a breeding bull. He was popular with breeders from coast to coast for his sound feet and legs and great fleshing. The number of champions and sale tops he sired is legion and only a few are pictured on the adjoining page. This will be one of the last opportunities to acquire daughters of this famous sire and the sale offering is rich in his blood.

**GLEN COVE LOCHINVAR** — This red, two-year-old combines the blood of Glen Cove Cairnbrogie and Louada Nugget in the Glen Cove herd. Look at the tremendous pedigree. His sire is by Cairnbrogie and out of one of the famed Louada Blood Royals by Calrossie Armada whose daughters formed a nucleus for the Louada herd. His dam, by Louada Nugget, is out of the famed Lavender Lady. She was a full sister to Cruggleton Leishman at Marelbar Farms and sold for \$4,400 to Hi-Ho. She weighed 1,600 pounds when she classified 87 points at 10 years losing six points due to an udder injury. She is certainly one of the greatest individuals the breed has ever known. Glen Cove Lochinvar takes the eye of all the visitors to the farm. He is the service sire of many of the females selling.

She is by the International grand champion Scotsdale Jupiter whose daughters have made such powerful brood cows at Scotsdale. Clipper King is a full brother to Glen Cove Jupiter that sold at \$1,250 in the 1963 sale. A full sister is one of the best brood cows in the herd. Clipper King is pictured above at 13 months.

## **18 Proved Brood Cows Sell**

The buying opportunities at Glen Cove on October 26 will be substantial . . . especially among the strong young brood cows selling.

First consider the richness of the pedigree of every female catalogued. They are carefully bred to some of the great sires of all time. They represent every female line on the farm — families that have been good for generations throughout the United States, Scotland and Canada.

Consider the calves they are carrying. Bred to the outstanding young Glen Cove sires, these females could well produce a single calf that alone would pay the entire bill.

An important factor too is the management. Things are practical at Glen Cove. The cows must thrive and produce in a rugged climate or they don't stay. These are cattle that have the stamina to do well for their new owners under almost any conditions.

Remember the reputation of the Worden Brothers . . . they are good cattlemen and sound businessmen. They are in business to stay and will stand back of every purchase.

Consider in particular the special draft of mature young cows on the following pages including several daughters of Glen Cove Cairnbrogie and Louada Nugget. This undoubtedly is the last opportunity to acquire them in numbers.

With so much behind them and a delivery offer as well, the females selling on October 26 deserve your serious consideration.
